# ENJOY YOUR ITALIAN!

"The conventional wisdom was that bilingualism was a disadvantage.  
Thanks to science, we now know that the opposite is true."

# ITALIAN, AN AMERICAN PASSION!

Italian language and culture courses continue to grow in schools throughout the United States. Every year tens of thousands of students of all ages and backgrounds choose to study Italian.

## Why?

Because this language and culture has so enriched the world with its...

/art /music /fashion /food /literary masterpieces /outstanding scientists

- Italy is a founding member of the EU, the G8 and the G20
- Italy is a key ally to the U.S.; it harbors one of the highest number of Nato and U.S. bases in the world
- Italy is the first non English speaking country destination for American students

**STUDYING ITALIAN IS MEANINGFUL, USEFUL, TASTEFUL, HELPFUL... WONDERFUL!**

Spread the word about the upcoming AP course and exam and promote the teaching of Italian and AP Italian in schools in your community!

### PARENTS

Speak to your children about selecting Italian as their foreign language of choice and encourage schools in your community to offer courses in Italian studies given its rich historical culture.

Encourage your children to study Italian in school. As spoken and understood, Italian is widely considered the oldest national language in Europe. It has always been and continues to be a door toward European culture.

#### Remember:

AP Italian allows a high school student to demonstrate the mastery of a rigorous course, and earn college credit or advanced placement in college.

College credits earned through successful scores on the AP Italian Exam can provide students with the opportunity to enroll in an upper-level college course in Italian or the time to study abroad in Italy.

Studying Italian is useful both in acquiring a new language and in enhancing their curriculum vitae, or resumé, for college.

AP Italian will allow you to save money! If your child earns a high score on the AP Exam, he or she could receive credit for the equivalent course in college, saving you the cost of the course.

### TEACHERS

Enrich and challenge yourselves professionally. By welcoming the AP Italian Language and Culture course into your school, you can teach at an even higher level. Speak to your department chairperson and your principal and together you can organize and develop an AP Italian course for your district and school.

### STUDENTS

Speak to your principal about adding Italian: Italian language education will enhance a student's understanding and appreciation of the vast contributions of Italians and Italian-Americans to American history, government, philosophy, art, architecture, science, medicine, and much more.

The College Board's AP Italian Language and Culture program can help you to earn college credit and advanced placement in college. AP is accepted by most two and four-year colleges and universities worldwide for college credit, advanced placement or both on the basis of successful exam scores. This includes colleges and universities in more than 60 countries around the world.

AP Italian will allow you to demonstrate to college admissions officers that you have the study skills and dedication to succeed in college.

If you are a senior this fall and are enrolled in an advanced Italian course, please contact your principal and your Italian teacher and ask them to offer the AP Italian course in its place.

If you are a native Italian speaker and wish to take the AP Italian Language and Culture Exam, please contact the Education Office of the Italian Consulate in your school district for information.

There are several Italian-American organizations that offer scholarships or travel to Italy for students of Italian. Some of them\* are offering prizes to those AP Italian students who score a 4 or 5 on their AP Exam.

## Why take the AP Italian Exam?

### FOR THREE REASONS:

1. to save time and money
2. to show colleges that you are already investing on a global cultural model for your future
3. to strengthen your transcript

Thanks to AP courses you have the opportunity, by the time you graduate from high school, to earn many college credits accepted by most universities in the United States and around the world. In this way you can save time and money!

Your transcript speaks for itself. When admissions officers see that you have successfully completed AP courses, they know that you will have a smooth transition to college level courses.
